### Recent Studies

[Pirahã Language](#) Check out new study:

- Language Without Numbers: Amazonian Tribe Has No Word To Express 'One' [Science Daily 15-7-08](#) "An Amazonian language with only 300 speakers has no word to express the concept of "one" or any other specific number, according to a new study from an MIT-led team."

- See also: Aboriginal Kids Can Count Without Numbers. [Science Daily 19-8-08](#) "Knowing the words for numbers is not necessary to be able to count, according to a new study of aboriginal children by UCL (University College London) and the University of Melbourne."
- 

### Interview with Dan Everett

[BBC World Service Interview with Dan Everett \(Feb. 2008\)](#)
